**Date:** October 30, 2017

Brenna Bell  
Bark, Staff Attorney  
PO Box 12065  
Portland OR 97212

Dear Brenna,

This letter is in response to your objection (#17-06-00-0002-218(C)) filed jointly with Oregon Wild to the draft Decision Notice (DN) and Finding of No Significant Impact (FONSI) for the Polallie Cooper Hazardous Fuels Reduction Project on the Mt. Hood National Forest.

The formal resolution meeting was held on October 23, 2017. As a result of this meeting and subsequent discussions, resolution was reached and you formally withdrew your objection via email on October 27, 2017. The resolution measures agreed to that will modify the Final DN include the following:

- The plantation unit in Block 9, which is approximately 23 acres, will be removed from the project.
- All temporary roads located below the unnamed stream, which is approximately 2 miles, in Block 10 will be removed from the project.
- Bark staff located a wet area in Block 11, which was not mapped in the NEPA analysis. If the location is confirmed to be a riparian area by the Hood River District Hydrologist, then the location will be mapped and managed accordingly.

By copy of this letter and the enclosed map depicting the final resolution agreement, the Responsible Official will clarify the analysis and final decision and make the modifications as noted above. She may sign her decision as soon as she has made the modifications, then notify interested and affected persons in accordance with the regulation at 36 CFR 218.12 and 36 CFR 220.7(d).

Because you have withdrawn your objection, I am setting it aside without review, in accordance with the regulation at 36 CFR 218.10(a)(6). This written response is the final administrative review by the Forest Service or the Department of Agriculture [36 CFR 218.10(b)(2)].

Sincerely,

LISA A. NORTHROP  
Forest Supervisor  
Objection Reviewing Officer

Enclosure: Map of Final Resolution Agreement
