Data Disclaimer

The USDA Forest Service makes no warranty, expressed or implied, including the warranties of merchantability and fitness for a particular purpose, nor assumes any legal liability or responsibility for the accuracy, reliability, completeness or utility of these geospatial data, or for the improper or incorrect use of these geospatial data. These geospatial data and related maps or graphics are not legal documents and are not intended to be used as such. The data and maps may not be used to determine title, ownership, legal descriptions or boundaries, legal jurisdiction, or restrictions that may be in place on either public or private land. Natural hazards may or may not be depicted on the data and maps, and land users should exercise due caution. The data are dynamic and may change over time. The user is responsible to verify the limitations of the geospatial data and to use the data accordingly.

The LRMP ArcInfo polygon coverage represents the land management areas developed in the 1990 Mt. Hood National Forest Land and Resource Management Plan (Forest Plan). This dataset identifies both the dominant, most restrictive land allocation in each Management Area as well as underlying less restrictive land allocations in each Management Area.
